| <b>Remarks (if any)</b> | Adani Cementation Limited (ACL), is subsidiary of Adani Enterprises Limited, proposed to establish an Integrated project as Lakhpat Cement Works consists of Clinkerization/Cement Plant (10MMTPA production capacity), Captive Power Plant CPP (99MW capacity), Mudhvay Limestone Mine (12MMTPA production capacity), Conveyor Corridor (12km), Berthing Jetty (19MMTPA Material Handling Capacity) and Desalination Plant (9000KLD production capacity) with Port Backup Facilities at village Maldo, Mudhvay, Koriyani and Kapurasi in Taluka Lakhpat, District Kutch (Gujarat). ACL has obtained Environmental Clearances (EC) from Ministry of Environment, Forest and Climate Change |

(MOEFCC) for  
Clinkerization/Cement  
Plant, CPP as well as  
Conveyor Corridor vide  
F.No.: J-11011/494/2017-  
IA.II(I) dated 12.05.2020  
and Mudhvay Limestone  
Mine vide F.No.: J-  
11015/121/2007-IA.II(M),  
dated 30th July, 2020.  
Environment Clearance of  
Berthing Jetty and  
Desalination Plant is under  
process. Gujarat Pollution  
Control Board (GPCB) has  
issued Consent to Establish  
(CTE) after EC vide File  
No. GPCB/RO-KUW/ID  
118949/17364 dated  
12.09.2025 and  
Consolidated Consent and  
Authorization (CCA)/  
Consent to Operate (CTO)  
vide outward no. 875429  
dated 24.09.2025.  
Company has also  
obtained Amendment in  
Environment Clearance  
Letter No J-  
11015/121/2007-IA.II (M)  
dated 30th July, 2020 for  
Mudhvay Limestone Mine  
Block C of M/s. Adani  
Cementation Limited with  
granted limestone  
production capacity of 12  
million TPA at Village  
Mudhvay, Taluka Lakhpat,  
District Kutch, Gujarat  
w.r.t Reduction of Mining  
lease area from 251.9 ha to  
238.0807 ha Construction  
and development of project  
will be started after grant  
of Environment Clearance  
of Berthing Jetty and  
Desalination Plant as third  
component of project  
related CRZ clearance and  
financial closure of the  
integrated project. Mine  
was started on 01.10.2025  
to prevent lapsing of the  
mining lease under section  
4A (4) of MMDR Act,  
1957 as we have already  
submitted 77 Cr of upfront  
payment and 77 Cr of bank  
guarantee as performance  
security for the same.  
Further, the said mine is

temporarily discontinued from 01.03.2026 as this mine is a part of the integrated project of cement plant, jetty and conveyor and EC /CRZ clearance for jetty project is under review since long. We assure, upon fully operationalization of cement plant envisaged with this mining lease (being auction mine), EC conditions will be complied.

**Reporting Period** 01 Jun(01 Oct - 31 Mar)

### Covering Letter

**Covering Letter** NA

### Compliance Reporting Details

**Reporting Year** 2026**Reporting Period** 01 Jun(01 Oct - 31 Mar)**Remark(if any)**

Adani Cementation Limited (ACL), is subsidiary of Adani Enterprises Limited, proposed to establish an Integrated project as Lakhpat Cement Works consists of Clinkerization/Cement Plant (10MMTPA production capacity), Captive Power Plant CPP (99MW capacity), Mudhvay Limestone Mine (12MMTPA production capacity), Conveyor Corridor (12km), Berthing Jetty (19MMTPA Material Handling Capacity) and Desalination Plant (9000KLD production capacity) with Port Backup Facilities at village Maldo, Mudhvay, Koriyani and Kapurasi in Taluka Lakhpat, District Kutch (Gujarat). ACL has obtained Environmental Clearances (EC) from Ministry of Environment, Forest and Climate Change (MOEFCC) for Clinkerization/Cement Plant, CPP as well as Conveyor Corridor vide F.No.: J-11011/494/2017-IA.II(I) dated 12.05.2020 and Mudhvay Limestone Mine vide F.No.: J-11015/121/2007-IA.II(M), dated 30th July, 2020. Environment Clearance of Berthing Jetty and Desalination Plant is under process. Gujarat Pollution Control Board (GPCB) has issued Consent to Establish (CTE) after EC vide File No. GPCB/RO-KUW/ID 118949/17364 dated 12.09.2025 and Consolidated Consent and Authorization (CCA)/ Consent to Operate (CTO) vide outward no. 875429 dated 24.09.2025. Company has also obtained Amendment in Environment Clearance Letter No J-11015/121/2007-IA.II (M) dated 30th July, 2020 for Mudhvay Limestone Mine Block C of M/s. Adani Cementation Limited with granted limestone production capacity of 12 million TPA at Village Mudhvay, Taluka Lakhpat, District Kutch, Gujarat w.r.t Reduction of Mining lease area from 251.9 ha to 238.0807 ha Construction and development of project will be started after grant of Environment Clearance of Berthing Jetty and Desalination Plant as third component of project related CRZ clearance and financial closure of the integrated project. Mine was started on 01.10.2025 to prevent lapsing of the mining lease under section 4A (4) of MMDR Act, 1957 as we have already submitted 77 Cr of upfront payment and 77 Cr of bank guarantee as performance security for the same. Further, the said mine is temporarily discontinued from 01.03.2026 as this mine is a part of the integrated project of cement plant, jetty and conveyor and EC /CRZ clearance for jetty project is under review since long. We assure, upon fully operationalization of cement plant envisaged with this mining lease (being auction mine), EC conditions will be complied.

Monitoring Stations with 1 (one) in upwind and 2 (two) in downwind direction based on long term climatological data about wind direction such that an angle of 120 degree is made between the monitoring locations to monitor critical parameters, relevant for mining operations, of air pollution viz. PM10, PM2.5, NO2, CO and SO2 etc. as per the methodology mentioned in NAAQS Notification No. B-29016/20/90/PCI/1, dated 18.11.2009 covering the aspects of transportation and use of heavy machinery in the impact zone. The ambient air quality shall also be monitored at prominent places like office building, canteen etc. as per the site condition to ascertain the exposure characteristics at specific places. The above data shall be digitally displayed within 03 months in front of the main Gate of the mine site.

| 9 | Air Quality Monitoring And Preservation | Effective safeguard measures for prevention of dust generation and subsequent suppression (like regular water sprinkling, metalled road construction etc.) shall be carried out in areas prone to air pollution wherein high levels of PM10 and PM2.5 are evident such as haul road, loading and unloading point and transfer points. The Fugitive dust emissions from all sources shall be regularly controlled by installation of required equipments / machineries and preventive maintenance. Use of suitable water-soluble chemical dust suppressing agents may be explored for better effectiveness of dust control system. It shall be ensured that air pollution level conform to the standards prescribed by the MoEFCC/ Central Pollution Control Board. | PPs Submission | Noted and Compliance assured<br>Agreed to Comply<br>29-05-2026<br>Attachment:NA |

| 18 | Noise Monitoring & Prevention | The peak particle velocity at 500m distance or within the nearest habitation, whichever is closer shall be monitored periodically as per applicable DGMS guidelines.                                                                                                                                                                                                                                                                                                                                                                               | PPs Submission | Not applicable, as the mining will be carried out using surface minors. No drilling and blasting involved<br>Agreed to Comply<br>29-05-2026<br>Attachment:NA |
| 19 | Noise Monitoring & Prevention | The illumination and sound at night at project sites disturb the villages in respect of both human and animal population. Consequent sleeping disorders and stress may affect the health in the villages located close to mining operations. Habitations have a right for darkness and minimal noise levels at night. PPs must ensure that the biological clock of the villages is not disturbed; by orienting the floodlights/ masks away from the villagers and keeping the noise levels well within the prescribed limits for day /night hours. | PPs Submission | Noted and Compliance assured<br>Agreed to Comply<br>29-05-2026<br>Attachment:NA                                                                              |

|    |                               |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |                |                                                                                 |

| 24 | Land Reclamation | The reclamation of waste dump sites shall be done in scientific manner as per the Approved Mining Plan cum Progressive Mine Closure Plan.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           | PPs Submission | Noted and Compliance assured<br>Agreed to Comply<br>29-05-2026<br>Attachment:NA |
| 25 | Land Reclamation | The slope of dumps shall be vegetated in scientific manner with suitable native species to maintain the slope stability, prevent erosion and surface run off. The selection of local species regulates local climatic parameters and help in adaptation of plant species to the microclimate. The gullies formed on slopes should be adequately taken care of as it impacts the overall stability of dumps. The dump mass should be consolidated with the help of dozer/ compactors thereby ensuring proper filling/ leveling of dump mass. In critical areas, use of geo textiles/ gee-membranes / clay liners / Bentonite etc. shall be undertaken for stabilization of the dump. | PPs Submission | Noted and Compliance assured<br>Agreed to Comply<br>29-05-2026<br>Attachment:NA |

| 32 | Greenbelt | The Project Proponent shall make necessary alternative arrangements for livestock feed by developing grazing land with a view to compensate those areas which are coming within the mine lease. The development of such grazing land shall be done in consultation with the State Government. In this regard, Project Proponent should essentially implement the directions of the Hon'ble Supreme Court with regard to acquisition of grazing land. The sparse trees on such grazing ground, which provide mid-day shelter from the scorching sun, should be scrupulously guarded/protected against felling and plantation of such trees should be promoted. | PPs Submission | Noted and Compliance assured<br>Agreed to Comply<br>29-05-2026<br>Attachment:NA                         |
