

Your (Half Yearly Compliance Report) has been Submitted with following details

Proposal No	IA/GJ/MIN/474873/2025
Compliance ID	1230061544
Compliance Number(For Tracking)	EC/M/COMPLIANCE/1230061544/2026
Reporting Year	2026
Reporting Period	01 Jun(01 Oct - 31 Mar)
Submission Date	30-05-2026
RO/SRO Name	Shri Satya Prakash Negi
RO/SRO Email	jhk119@ifs.nic.in
State	GUJARAT
RO/SRO Office Address	Integrated Regional Offices, Gandhi Nagar

Note:- SMS and E-Mail has been sent to Shri Satya Prakash Negi, GUJARAT with Notification to Project Proponent.

Half Yearly Compliance Report**2026****01 Jun(01 Oct - 31 Mar)****Acknowledgement**

Proposal Name	Amendment in Environment Clearance Letter No J-11015/121/2007-IA.II (M) dated 30th July., 2020 for Mudhvay Limestone Mine Block "C" of Mis. Adani Cementation Limited with granted limestone production capacity of 12 million TP A at Village Mudhvay, Taluka Lakhpat, District Kutch, Gujarat w.r.t Reduction of Mining lease area from 251.9 ha to 238.0807		
Name of Entity / Corporate Office	ADANI CEMENT A TION LIMITED		
Village(s)	Malda		
District	KACHCHH		
Proposal No.	IA/GJ/MIN/474873/2025	Category	Non-Coal Mining
Plot / Survey / Khasra No.		Sub-District	Lakhpat
State	GUJARAT	Entity's PAN	*****9850D
MoEF File No.	J-11015/121/2007-IA.II (M)	Entity name as per PAN	Adani Cementation Limited

Compliance Reporting Details**Reporting Year**

2026

Remarks (if any)

ACL has obtained Environmental Clearances (EC) from the Ministry of Environment, Forest and Climate Change (MoEFCC) for the Clinkerization/Cement Plant, Captive Power Plant, and Conveyor Corridor vide F.No. J-11011/494/2017-IA.II(I) dated 12.05.2020 and for the Mudhvay Limestone Mine vide F.No. J-11015/121/2007-IA.II(M) dated 30 July 2020, while the Environmental Clearance for the Berthing Jetty and Desalination Plant is under process. The Gujarat Pollution Control Board (GPCB) has issued Consent to Establish (CTE) vide File No. GPCB/RO-KUW/ID 118949/17364 dated 12.09.2025 and Consolidated Consent and Authorization

(CCA)/Consent to Operate (CTO) vide outward No. 875429 dated 24.09.2025.

The company has also obtained an amendment to the Environmental Clearance Letter No. J-11015/121/2007-IA.II(M) dated 30 July 2020 for Mudhvay Limestone Mine Block C of M/s Adani Cementation Limited, with a granted limestone production capacity of 12 million TPA at Village Mudhvay, Taluka Lakhpat, District Kutch, Gujarat, with respect to the reduction of mining lease area from 251.9 ha to 238.0807 ha. Construction and development of the project will commence after the grant of Environmental Clearance for the Berthing Jetty and Desalination Plant, being the third component requiring CRZ clearance, and upon achieving financial closure of the integrated project. The mine was started on 01.10.2025 to prevent lapsing of the mining lease under Section 4A(4) of the MMDR Act, 1957, for which an upfront payment of Rs. 77 crore and a bank guarantee of Rs. 77 crore have already been submitted as performance security. Further, the mine has been temporarily discontinued from 01.03.2026, as it forms part of the integrated project comprising the cement plant, jetty, and conveyor system, and the EC/CRZ clearance for the jetty component is currently under review. It is assured that, upon full operationalization of the cement plant envisaged with this mining lease (being an auctioned mine), all Environmental Clearance conditions will be duly complied with.

Conditions

Specific Conditions

Sr.No.	Condition Heading	Condition Details	Status of Compliance,Remarks / Reason and Supporting Documents
--------	-------------------	-------------------	--

1	Water Quality Monitoring And Preservation	Approval/permission of the CGWA/SGWA shall be obtained before drawing ground water for the project activities, if applicable. State Pollution Control Board (SPCB) concerned shall not issue Consent to Operate (CTO) till the project proponent obtains such permission. Since there is ground water intersection in mine project, necessary consultation and approvals should be taken from CGWA. PP shall also obtain permission from CGWA/SGWA before intersecting ground water.	PPs Submission	NOC from Central Ground Water Authority has been obtained for water withdrawal from proposed mine. Complied 30-05-2026 Attachment: Click to View
2	Water Quality Monitoring And Preservation	Groundwater and surface water in and around the mine shall be regularly monitored at strategic locations for heavy metals such as Ni, Co, Cu, Pb, Zn and Cd. The monitoring stations shall be established in consultation with the Regional Director, Central Ground Water Board and the State Pollution Control Board.	PPs Submission	Noted Agreed to Comply 30-05-2026 Attachment:NA

3	Miscellaneous	No transportation shall be allowed through the village road.	PPs Submission	Noted Agreed to Comply 30-05-2026 Attachment:NA
4	Energy Preservation Measures	The Project Proponent shall explore the possibility of using atleast 20 percent of Electric vehicles/CNG/Solar instead of diesel operation within three years. PP needs to install solar power plant at the earliest to reduce dependency on conventional power supply from state.	PPs Submission	Noted, possibility of Electric vehicles/CNG/Solar instead shall be explored Agreed to Comply 30-05-2026 Attachment:NA
5	Miscellaneous	PP needs to revise their existing Wildlife Conservation plan in consultation with State Forest Department as per Wildlife Amendment Act 2022 and PP shall submit the revised action plan to Ministrys Regional Office. PP shall also submit the implementation report to Ministry's Regional Office on an annual basis.	PPs Submission	Existing wildlife conservation plan has been updated as per Wildlife Amendment Act, 2022 and submitted to DFO, Bhuj for further approval and authentication. Submission acknowledgement is enclosed Agreed to Comply 30-05-2026 Attachment: Click to View

6	Miscellaneous	The Project Proponent needs to use modern equipment's such as Camera Traps for ensuring presence and movement of wild animals in the study area in consultation with Wildlife Wing of Forest Department. Appropriate interventions shall be taken to minimize stress conditions for wild animals and to avoid Man-Animal conflict.	PPs Submission	Noted Agreed to Comply 30-05-2026 Attachment:NA
7	Water Quality Monitoring And Preservation	The Project Proponent shall provide the rainwater harvesting structure at mine offices and quarters/colonies to recharge the ground water.	PPs Submission	Noted and compliance assured as when as mine offices/quarters development progress Agreed to Comply 30-05-2026 Attachment:NA
8	Greenbelt	PP needs to comply the OM dated 24.07.2024 of MoEFCC, wherein it is stated that the plantation of saplings shall be carried out in the earmarked 33 percent greenbelt area as part of the tree plantation campaign EK Ped Maa ke Naam and the details of the same shall be uploaded in the MeriLife portal (https://merilife.nic.in).	PPs Submission	Noted and compliance assured Agreed to Comply 30-05-2026 Attachment:NA

9	Water Quality Monitoring And Preservation	Project Proponent should not use the fresh ground water for dust suppression in the project and on the proposed transportation route. The Project Proponent needs to reduce the dependency upon the ground water, surface water (water from rivers, etc.) and it shall construct water reservoirs/ponds within the lease area for meeting its day-to-day water needs. An implementation report in this regard needs to be submitted to Ministry's Regional Office.	PPs Submission	Noted Agreed to Comply 30-05-2026 Attachment:NA
10	Water Quality Monitoring And Preservation	The Project Proponent shall provide the rainwater harvesting structure at mine offices and quarters/colonies to recharge the ground water.	PPs Submission	Noted Agreed to Comply 30-05-2026 Attachment:NA
11	Water Quality Monitoring And Preservation	The Project Proponent needs to provide the good quality drinking water supply and also by laying network of pipelines to the local people of the nearby village namely Semariya, Ghikuria and Nandini Khundini free of cost. PP	PPs Submission	Not applicable, as this condition wrongly inserted from other proposal. Agreed to Comply 30-05-2026 Attachment:NA

		needs to install water treatment plant and process the water before supplying to the villages.		
12	Waste Management	PP should utilise the Oil and Grease Trap for washing of trucks, HEMM operational in their mine project. Disposal of the used oil and drums should be through authorized recyclers and as per rules. Copy of logbook of Oil withdrawn from Oil and Grease Trap should be submitted to the Regional Office of the Ministry.	PPs Submission	Noted and compliance assured Agreed to Comply 30-05-2026 Attachment:NA
13	Waste Management	PP shall ensure that all type of plastic waste generated from the mines shall be stored separately in isolated area and disposed of strictly adhering to the Plastic Waste Management Rules 2016. In pursuant to Ministry's OM dated 18/07/2022 PP shall also create awareness among the people working in the project area as well as in its surrounding area on the ban on Single Use Plastic (SUP) in order to ensure compliance of Ministry's Notification published by the Ministry	PPs Submission	Noted and compliance assured Agreed to Comply 30-05-2026 Attachment:NA

		on 12/08/2021. A report along with photograph on the measures taken shall be submitted to Ministry's Regional Office.		
14	Water Quality Monitoring And Preservation	PP needs to share the hydrological study recommendations with a recognized national institute of repute for their expert comments within 15 days of receiving the Environmental Clearance (EC) amendment letter. Based on the institute's comments, PP shall develop a comprehensive safety plan to address water ingress risks and submit it to the Directorate General of Mines Safety (DGMS) for prior approval. No groundwater intersection shall occur until DGMS grants approval, ensuring all safety implications are adequately addressed in compliance with DGMS guidelines.	PPs Submission	Noted and compliance assured Agreed to Comply 30-05-2026 Attachment:NA
15	Miscellaneous	All other terms and conditions mentioned in the EC letter dated 30.07.2020 remains unchanged.	PPs Submission	Noted Agreed to Comply 30-05-2026 Attachment:NA

General Conditions

Sr.No.	Condition Heading	Condition Details	Status of Compliance,Remarks / Reason and Supporting Documents	
1	Statutory Compliance	This Environmental Clearance (EC) is subject to orders/judgment of Hon'ble Supreme Court of India, Hon'ble High Court, Hon'ble NGT and any other Court of Law, Common Cause Conditions as may be applicable.	PPs Submission	Noted Agreed to Comply 30-05-2026 Attachment:NA
2	Statutory Compliance	State Pollution Control Board/Committee shall be responsible for display of this EC letter at its Regional office, District Industries Centre and Collector's office/Tehsildar's Office for 30 days.	PPs Submission	Noted Agreed to Comply 30-05-2026 Attachment:NA
3	Mining Plan	The State Government concerned shall ensure that mining operation shall not be commenced till the entire compensation levied, if any, for illegal mining paid by the Project Proponent through their respective Department of Mining and Geology in strict compliance of Judgment of Hon'ble Supreme Court dated 2nd August, 2017 in Writ Petition (Civil) No. 114 of 2014 in matter of Common Cause versus Union of India and Ors.	PPs Submission	Noted Agreed to Comply 30-05-2026 Attachment:NA

4	Mining Plan	The Project Proponent shall follow the mitigation measures provided in MoEFCC's Office Memorandum No. Z-11013/57/2014-IA.II (M), dated 29th October, 2014, titled Impact of mining activities on Habitations-Issues related to the mining Projects wherein Habitations and villages are the part of mine lease areas or Habitations and villages are surrounded by the mine lease area.	PPs Submission	Noted Agreed to Comply 30-05-2026 Attachment:NA
5	Statutory Compliance	The Project Authorities should widely advertise about the grant of this EC letter by printing the same in at least two local newspapers, one of which shall be in vernacular language of the concerned area. The advertisement shall be done within 7 days of the issue of the clearance letter mentioning that the instant project has been accorded EC and copy of the EC letter is available with the State Pollution Control Board/Committee and web site of the Ministry of Environment, Forest and Climate Change (www.parivesh.nic.in). A copy of the advertisement may be forwarded to the concerned MoEFCC Regional Office for compliance and record.	PPs Submission	Complied and copy of advertisement attached Complied 30-05-2026 Attachment: Click to View

6	Miscellaneous	A copy of EC letter will be marked to concerned Panchayat / local NGO etc. if any, from whom suggestion / representation has been received while processing the proposal.	PPs Submission	Noted Agreed to Comply 30-05-2026 Attachment:NA
7	Mining Plan	The Project Proponent shall inform the MoEFCC for any change in ownership of the mining lease. In case there is any change in ownership or mining lease is transferred, PP needs to apply for transfer of EC as per provisions of the para 11 of EIA Notification, 2006 as amended from time to time.	PPs Submission	Noted Agreed to Comply 30-05-2026 Attachment:NA
8	Statutory Compliance	The Project proponent complies with all the statutory requirements and judgment of Hon'ble Supreme Court dated 2nd August, 2017 in Writ Petition (Civil) No. 114 of 2014 in matter of Common Cause versus Union of India and Ors before commencing the mining operations.	PPs Submission	Noted Agreed to Comply 30-05-2026 Attachment:NA
9	Statutory Compliance	The Project proponent complies with all the statutory requirements and judgment of Hon'ble Supreme Court dated 2nd August, 2017 in Writ Petition (Civil) No. 114 of 2014 in matter of Common Cause versus Union of India and Ors	PPs Submission	Noted Agreed to Comply 30-05-2026 Attachment:NA

		before commencing the mining operations.		
10	Water Quality Monitoring And Preservation	The project proponent shall obtain the necessary permission from the Central Ground Water Authority, in case of drawl of ground water / from the competent authority concerned in case of drawl of surface water required for the project.	PPs Submission	NOC from Central Ground Water Authority has been obtained for water withdrawal from proposed mine. Complied 30-05-2026 Attachment: Click to View
11	Greenbelt	The Project Proponent shall carryout plantation/afforestation in backfilled and reclaimed area of mining lease, around water body, along the roadsides, in community areas etc. by planting the native species in consultation with the State Forest Department/Agriculture Department/Rural development department/Tribal Welfare Department/Gram Panchayat such that only those species be selected which are of use to the local people. The CPCB guidelines in this respect shall also be adhered. The density of the trees should be around 2500 saplings per Hectare. Adequate budgetary provision shall be made for protection and care of trees.	PPs Submission	Noted as per the mining plan, plantation activities shall be carried out Agreed to Comply 30-05-2026 Attachment:NA
12	Greenbelt	The Project Proponent shall make necessary alternative arrangements for livestock	PPs Submission	Noted Agreed to Comply

		feed by developing grazing land with a view to compensate those areas which are coming within the mine lease. The development of such grazing land shall be done in consultation with the State Government. In this regard, Project Proponent should essentially implement the directions of the Hon'ble Supreme Court with regard to acquisition of grazing land. The sparse trees on such grazing ground, which provide mid-day shelter from the scorching sun, should be scrupulously guarded/protected against felling and plantation of such trees should be promoted.		30-05-2026 Attachment:NA
13	Air Quality Monitoring And Preservation	Effective safeguard measures for prevention of dust generation and subsequent suppression (like regular water sprinkling, metalled road construction etc.) shall be carried out in areas prone to air pollution wherein high levels of PM10 and PM2.5 are evident such as haul road, loading and unloading point and transfer points. The fugitive dust emissions from all sources shall be regularly controlled by installation of required equipments/machineries and preventive maintenance. Use of suitable water-soluble	PPs Submission	Noted Agreed to Comply 30-05-2026 Attachment:NA

chemical dust suppressing agents may be explored for better effectiveness of dust control system. It shall be ensured that air pollution level conform to the standards prescribed by the MoEFCC/Central Pollution Control Board.

14	Air Quality Monitoring And Preservation	The Project Proponent shall install a minimum of 3 (three) online Ambient Air Quality Monitoring Stations with 1 (one) in upwind and 2 (two) in downwind direction based on long term climatological data about wind direction such that an angle of 120 degree is made between the monitoring locations to monitor critical parameters, relevant for mining operations, of air pollution viz. PM10, PM2.5, NO2, CO and SO2 etc. as per the methodology mentioned in NAAQS Notification No. B-29016/20/90/PCI/I, dated 18.11.2009 covering the aspects of transportation and use of heavy machinery in the impact zone. The ambient air quality shall also be monitored at prominent places like office building, canteen etc. as per the site condition to ascertain the exposure characteristics at specific places. The above data shall be digitally displayed within 03 months in front of the main Gate of the mine site.	PPs Submission	Noted Agreed to Comply 30-05-2026 Attachment:NA
15	Water Quality Monitoring And Preservation	In case, immediate mining scheme envisages intersection of ground water table, then Environmental Clearance shall become operational only after receiving formal clearance from CGWA. In case, mining operation involves intersection	PPs Submission	NOC from Central Ground Water Authority has been obtained for water withdrawal from proposed mine Agreed to Comply 30-05-2026 Attachment:NA

		of ground water table at a later stage, then PP shall ensure that prior approval from CGWA and MoEFCC is in place before such mining operations. The permission for intersection of ground water table shall essentially be based on detailed hydro-geological study of the area.		
16	Water Quality Monitoring And Preservation	Quality of polluted water generated from mining operations which include Chemical Oxygen Demand (COD) in mines run-off; acid mine drainage and metal contamination in runoff shall be monitored along with Total Suspended Solids (TDS), Dissolved Oxygen (DO), pH and Total Suspended Solids (TSS). The monitored data shall be uploaded on the website of the company as well as displayed at the project site in public domain, on a display board, at a suitable location near the main gate of the Company. The circular No. J-20012/1/2006-IA.II (M) dated 27.05.2009 issued by Ministry of Environment, Forest and Climate Change may also be referred in this regard.	PPs Submission	Noted Agreed to Comply 30-05-2026 Attachment:NA

17	Water Quality Monitoring And Preservation	Project Proponent shall plan, develop and implement rainwater harvesting measures on long term basis to augment ground water resources in the area in consultation with Central Ground Water Board/State Groundwater Department. A report on amount of water recharged needs to be submitted to Regional Office MoEFCC annually.	PPs Submission	Noted Agreed to Comply 30-05-2026 Attachment:NA
18	Water Quality Monitoring And Preservation	Project Proponent shall regularly monitor and maintain records w.r.t. ground water level and quality in and around the mine lease by establishing a network of existing wells as well as new piezo-meter installations during the mining operation in consultation with Central Ground Water Authority/State Ground Water Department. The Report on changes in Ground water level and quality shall be submitted on six-monthly basis to the Regional Office of the Ministry, CGWA and State Groundwater Department / State Pollution Control Board.	PPs Submission	Noted and compliance assured Agreed to Comply 30-05-2026 Attachment:NA
19	Water Quality Monitoring And Preservation	The water balance/water auditing shall be carried out and measure for reducing the consumption of water shall be taken up and reported to the Regional Office of the MoEFCC	PPs Submission	Noted Agreed to Comply 30-05-2026 Attachment:NA

		and State Pollution Control Board/Committee.		
20	Water Quality Monitoring And Preservation	The Project Proponent shall undertake regular monitoring of natural water course/water resources/springs and perennial nallahs existing/flowing in and around the mine lease including upstream and downstream. Sufficient number of gullies shall be provided at appropriate places within the lease for management of water. The parameters to be monitored shall include their water quality vis-a-vis suitability for usage as per CPCB criteria and flow rate. It shall be ensured that no obstruction and/or alteration be made to water bodies during mining operations without justification and prior approval of MoEFCC. The monitoring of water courses/bodies existing in lease area shall be carried out four times in a year viz. pre-monsoon (April-May), monsoon (August), post-monsoon (November) and winter (January) and the record of monitored data may be sent regularly to Ministry of Environment, Forest and Climate Change and its Regional Office, Central Ground Water Authority and Regional Director, Central	PPs Submission	Noted and compliance assured Agreed to Comply 30-05-2026 Attachment:NA

		Ground Water Board, State Pollution Control Board and Central Pollution Control Board, clearly showing the trend analysis on six-monthly basis.		
21	Noise Monitoring & Prevention	The Project Proponent shall take measures for control of noise levels below 85 dBA in the work environment. The workers engaged in operations of HEMM, etc. should be provided with ear plugs/muffs. All personnel including laborers working in dusty areas shall be provided with protective respiratory devices along with adequate training, awareness and information on safety and health aspects. The PP shall be held responsible in case it has been found that workers/personals/laborers are working without personal protective equipment.	PPs Submission	Noted and compliance assured Agreed to Comply 30-05-2026 Attachment:NA
22	Noise Monitoring & Prevention	The peak particle velocity at 500m distance or within the nearest habitation, whichever is closer shall be monitored periodically as per applicable DGMS guidelines.	PPs Submission	Not applicable, as the mining will be carried out using surface minors. No drilling and blasting involved Agreed to Comply 30-05-2026 Attachment:NA
23	Noise Monitoring & Prevention	The illumination and sound at night at project sites disturb the villages in respect of both human and animal population. Consequent sleeping disorders and stress may affect the	PPs Submission	Noted and compliance assured Agreed to Comply 30-05-2026 Attachment:NA

		health in the villages located close to mining operations. Habitations have a right for darkness and minimal noise levels at night. PPs must ensure that the biological clock of the villages is not disturbed; by orienting the floodlights/masks away from the villagers and keeping the noise levels well within the prescribed limits for day/night hours.		
24	Mining Plan	The Project Proponent shall adhere to approved mining plan, inter alia, including, total excavation (quantum of mineral, waste, over burden, inter burden and top soil etc.); mining technology; lease area; scope of working (method of mining, overburden and dump management, O.B and dump mining, mineral transportation mode, ultimate depth of mining, concurrent reclamation and reclamation at mine closure; land-use of the mine lease area at various stages of mining scheme as well as at the end-of-life; etc.).	PPs Submission	Noted and compliance assured Agreed to Comply 30-05-2026 Attachment:NA
25	Mining Plan	The land-use of the mine lease area at various stages of mining scheme as well as at the end-of-life shall be governed as per the approved Mining Plan. The excavation vis-a-vis backfilling in the mine lease area and corresponding	PPs Submission	Noted and compliance assured Agreed to Comply 30-05-2026 Attachment:NA

		afforestation to be raised in the reclaimed area shall be governed as per approved mining plan. PP shall ensure the monitoring and management of rehabilitated areas until the vegetation becomes self-sustaining. The compliance status shall be submitted half-yearly to the MoEFCC and its concerned Regional Office.		
26	Land Reclamation	The slope of dumps shall be vegetated in scientific manner with suitable native species to maintain the slope stability, prevent erosion and surface run off. The selection of local species regulates local climatic parameters and help in adaptation of plant species to the microclimate. The gullies formed on slopes should be adequately taken care of as it impacts the overall stability of dumps. The dump mass should be consolidated with the help of dozer/compactors thereby ensuring proper filling/leveling of dump mass. In critical areas, use of geo textiles/geo-membranes/clay liners/Bentonite etc. shall be undertaken for stabilization of the dump.	PPs Submission	Noted and compliance assured Agreed to Comply 30-05-2026 Attachment:NA
27	Land Reclamation	The Overburden (O.B.), waste and topsoil generated during the mining operations shall be stacked at earmarked OB	PPs Submission	Noted and compliance assured Agreed to Comply

		dump site(s) only and it should not be kept active for a long period of time. The physical parameters of the OB/waste dumps/topsoil dump like height, width and angle of slope shall be governed as per the approved Mining Plan and the guidelines/circulars issued by D.G.M.S. The topsoil shall be used for land reclamation and plantation.		30-05-2026 Attachment:NA
28	Land Reclamation	Catch drains, settling tanks and siltation ponds of appropriate size shall be constructed around the mine working, mineral yards and Top Soil/OB/Waste dumps to prevent run off of water and flow of sediments directly into the water bodies (Nallah/River/Pond etc.). The collected water should be utilized for watering the mine area, roads, green belt development, plantation etc. The drains/sedimentation sumps etc. shall be de-silted regularly, particularly after monsoon season, and maintained properly.	PPs Submission	Noted and compliance assured Agreed to Comply 30-05-2026 Attachment:NA
29	Land Reclamation	Check dams of appropriate size, gradient and length shall be constructed around mine pit and OB dumps to prevent storm run-off and sediment flow into adjoining water bodies. A safety margin of 50percent shall be kept for	PPs Submission	Noted and compliance assured Agreed to Comply 30-05-2026 Attachment:NA

		designing of sump structures over and above peak rainfall (based on 50 years data) and maximum discharge in the mine and its adjoining area which shall also help in providing adequate retention time period thereby allowing proper settling of sediments/silt material. The sedimentation pits/sumps shall be constructed at the corners of the garland drains.		
30	Miscellaneous	No Transportation of the minerals shall be allowed in case of roads passing through villages/habitations. In such cases, PP shall construct a bypass road for the purpose of transportation of the minerals leaving an adequate gap (say at least 200 meters) so that the adverse impact of sound and dust along with chances of accidents could be mitigated. All costs resulting from widening and strengthening of existing public road network shall be borne by the PP in consultation with nodal State Govt. Department. Transportation of minerals through road movement in case of existing village/rural roads shall be allowed in consultation with nodal State Govt. Department only after required strengthening such that the carrying capacity of roads is increased to handle	PPs Submission	Noted and compliance assured Agreed to Comply 30-05-2026 Attachment:NA

		the traffic load. The pollution due to transportation load on the environment will be effectively controlled and water sprinkling will also be done regularly. Vehicular emissions shall be kept under control and regularly monitored. Project should obtain Pollution Under Control (PUC) certificate for all the vehicles from authorized pollution testing centers. (If applicable in case of road transport).		
31	Miscellaneous	The Main haulage road within the mine lease should be provided with a permanent water sprinkling arrangement for dust suppression. Other roads within the mine lease should be wetted regularly with tanker-mounted water sprinkling system. The other areas of dust generation like crushing zone, material transfer points, material yards etc. should invariably be provided with dust suppression arrangements. The air pollution control equipments like bag filters, vacuum suction hoods, dry fogging system etc. shall be installed at Crushers, belt-conveyors and other areas prone to air pollution. The belt conveyor should be fully covered to avoid generation of dust while transportation. PP	PPs Submission	Noted and compliance assured Agreed to Comply 30-05-2026 Attachment:NA

		shall take necessary measures to avoid generation of fugitive dust emissions.		
32	Greenbelt	The Project Proponent shall develop greenbelt in 7.5m wide safety zone all along the mine lease boundary as per the guidelines of CPCB in order to arrest pollution emanating from mining operations within the lease. The whole Green belt shall be developed within first 5 years starting from windward side of the active mining area. The development of greenbelt shall be governed as per the EC granted by the Ministry irrespective of the stipulation made in approved mine plan.	PPs Submission	Noted and compliance assured Agreed to Comply 30-05-2026 Attachment:NA
33	Public Hearing	Project Proponent shall make provision for the housing for workers/labors or shall construct labor camps within/outside (company owned land) with necessary basic infrastructure/facilities like fuel for cooking, mobile toilets, mobile STP, safe drinking water, medical health care, creche for kids etc. The housing may be provided in the form of temporary structures which can be removed after the completion of the project related infrastructure. The domestic waste water should be treated with STP in order to avoid	PPs Submission	Noted and compliance assured Agreed to Comply 30-05-2026 Attachment:NA

		contamination of underground water.		
34	Corporate Environmental Responsibility	The Project Proponent shall submit the time-bound action plan to the concerned regional office of the Ministry within 6 months from the date of issuance of environmental clearance for undertaking the activities committed during public consultation by the project proponent and as discussed by the EAC, in terms of the provisions of the MoEFCC Office Memorandum No. 22-65/2017-IA.III dated 30 September, 2020. The action plan shall be implemented within three years of commencement of the project.	PPs Submission	Noted and compliance assured. Action plan is enclosed with the compliance report Agreed to Comply 30-05-2026 Attachment:NA
35	Miscellaneous	The Project Proponent shall prepare digital map (land use and land cover) of the entire lease area once in five years for purpose of monitoring land use pattern and submit a report to concerned Regional Office of the MoEFCC.	PPs Submission	Noted and compliance assured Agreed to Comply 30-05-2026 Attachment:NA
36	Miscellaneous	Any appeal against this environmental clearance shall lie with the National Green Tribunal, if preferred, within a period of 30 days as prescribed under Section 16 of the National Green Tribunal Act, 2010.	PPs Submission	Noted and compliance assured Agreed to Comply 30-05-2026 Attachment:NA

37	Miscellaneous	A separate Environmental Management Cell with suitable qualified manpower should be set-up under the control of a Senior Executive. The Senior Executive shall directly report to Head of the Organization. Adequate number of qualified Environmental Scientists and Mining Engineers shall be appointed and submit a report to RO, MoEFCC.	PPs Submission	Noted and compliance assured Agreed to Comply 30-05-2026 Attachment:NA
38	Miscellaneous	The concerned Regional Office of the MoEFCC shall randomly monitor compliance of the stipulated conditions. The project authorities should extend full cooperation to the MoEFCC officer(s) by furnishing the requisite data/information/monitoring reports.	PPs Submission	Noted Agreed to Comply 30-05-2026 Attachment:NA
39	Miscellaneous	The Project Proponent shall submit six monthly compliance reports on the status of the implementation of the stipulated environmental safeguards to the MOEFCC and its concerned Regional Office, Central Pollution Control Board and State Pollution Control Board.	PPs Submission	Noted Agreed to Comply 30-05-2026 Attachment:NA

40	Miscellaneous	Concealing factual data, failure to comply with any of the conditions mentioned above, or submission of false/fabricated data may result in withdrawal of this clearance and attract action under the provisions of Environment (Protection) Act, 1986.	PPs Submission	Noted Agreed to Comply 30-05-2026 Attachment:NA
41	Miscellaneous	The Ministry or any other competent authority may alter/modify the above conditions or stipulate any further condition in the interest of environment protection.	PPs Submission	Noted Agreed to Comply 30-05-2026 Attachment:NA
42	Miscellaneous	In pursuant to Ministry's O.M No 22-34/2018-IA.III dated 16.01.2020 to comply with the direction made by Hon'ble Supreme Court on 8.01.2020 in W.P. (Civil) No 114/2014 in the matter Common Cause vs Union of India, the mining lease holder shall after ceasing mining operations, undertake regrassing the mining area and any other area which may have been disturbed due to other mining activities and restore the land to a condition which is fit for growth of fodder, flora, fauna etc.	PPs Submission	Noted Agreed to Comply 30-05-2026 Attachment:NA
43	Miscellaneous	The above conditions will be enforced inter-alia, under the provisions of the Water	PPs Submission	Noted Agreed to Comply

(Prevention and Control of Pollution) Act, 1974, the Air (Prevention and Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986 and the Public Liability Insurance Act, 1991 along with their amendments and rules made there under and also any other orders passed by the Hon'ble Supreme Court of India/High Court and any other Court of Law relating to the subject matter.
