Ahmedabad, August 3, 2023: Adani Enterprises Ltd (AEL), part of the Adani Group, today announced its results for the quarter ended June 30, 2023.

“Every quarter, year after year and across three decades, Adani Enterprises has consistently proven its reputation not only as India’s most successful business incubator but also as a global powerhouse in infrastructure development,” said Mr Gautam Adani, Chairman of the Adani Group. “These results are a validation of the Adani Group’s robust operational and financial achievements. These outcomes, led by our incubating business of Adani Airports, Adani New Industries, Data Center and Adani Roads, not only underscore our history of creating and nurturing new and vital infrastructure businesses but also emphasise the future value and growth potential of the diverse Adani portfolio. Our expertise in executing large-scale projects, like Kutch Copper, Navi Mumbai Airport, the certification of India’s first 5 MW onshore wind turbine, coupled with our world-class O&M capabilities are fundamental drivers that continue to accelerate our infrastructure journey that is poised to play a significant role in meeting the aspirations of largest emerging middle class cohort in the world. As we explore strategic expansion and growth, we remain committed to upholding the highest standards of governance, compliance and performance.”

About Adani Enterprises Ltd

Adani Enterprises Limited (AEL) is the flagship company of Adani Group, one of India's largest business organisations. Over the years, Adani Enterprises has focused on building emerging infrastructure businesses, contributing to nation-building and divesting them into separate listed entities. Having successfully built unicorns like Adani Ports & SEZ, Adani Energy Solutions, Adani Power, Adani Green Energy, Adani Total Gas and Adani Wilmar, the company has contributed significantly to make the country self-reliant with our portfolio of robust businesses. This has also led to significant returns to our shareholders over 28+ years.

The next generation of its strategic business investments are centered around green hydrogen ecosystem, airport management, data center, roads and primary industry like copper and petrochem all of which have significant scope for value unlocking.
