3. Describe the Mechanisms to Receive and Redress Grievances of the Community.

AEL, through the Adani Foundation, has established a structured and accessible mechanism to receive and address community grievances. A grievance redressal register is maintained at each site under the supervision of the CSR representative, ensuring systematic recording and tracking of all concerns.

Community members can raise grievances through multiple channels, including direct interaction with the CSR team, phone communication, written submissions, and through local administration authorities, which are duly recorded upon receipt.

All grievances are logged promptly and reviewed on a regular basis by the CSR team. Issues are assessed, prioritised, and addressed in a time-bound manner, with critical matters escalated to the site leadership where required. The closure of grievances is formally recorded, ensuring transparency and accountability in the process.

This structured approach enables timely resolution of community concerns while strengthening trust and engagement with local stakeholders.
